

A HOLISTIC EXECUTIVE PROTECTION APPROACH

Protecting the Unseen Vulnerabilities

UNITED SECURITY
INCORPORATED

USI INTEGRATED
SOLUTIONS, INC.

Who We Are

In today's interconnected world, high-net-worth individuals (HNWIs), corporate executives, and their families face complex security risks that transcend traditional physical threats. At **United Security, Inc. (USI)**, we understand that true protection must span both the physical and digital realms. Our integrated **Executive Protection services** provide a full spectrum of security tailored to safeguard not just where you are, but also who you are and what you represent.

Founded in 1992, United Security, Inc. (USI) is a nationally trusted Women-Owned Business Enterprise (WBE) delivering professional security services to private and public sector clients. Our decades of experience include partnerships with federal agencies such as the Department of Homeland Security, U.S. Marshals Service, and the Department of Veterans Affairs. With a commitment to diversity, innovation, and excellence, USI protects corporate, healthcare, educational, and commercial sectors across the nation.

A Holistic Executive Protection Approach

Protecting Your Presence: Physical Security

Our physical protection services are built on precision, experience, and adaptability, providing an unwavering shield for every aspect of your daily life.

Close-In Protection

Highly trained agents, often with military or law enforcement backgrounds, provide discreet, adaptive personal security.

Secure Transportation

Professional drivers and advance route planning ensure safe, efficient travel.

Advance Planning and Logistics

Comprehensive site inspections, emergency mapping, venue pre-checks, and law enforcement coordination.

Event and Crowd Security

Perimeter control, crowd management, and secure access oversight for events of any size.

A Holistic Executive Protection Approach

Protecting Your Identity: Cybersecurity Integration

Today's digital landscape presents a new frontier of risk for high-net-worth individuals and corporate leaders. We extend Executive Protection beyond the physical world by proactively monitoring and defending your digital footprint, securing not just where you operate, but who you are in every online and networked space.

Threat Monitoring and Detection

- Social Media Monitoring
- Dark Web Monitoring
- Threat Identification
- Real-Time Alerts

Incident Response and Recovery

- Cyber Threat Intelligence Assessments
- Digital Forensics and Incident Response
- Remote Data Wipe Services

Secure Infrastructure

- Secure VPN and Internet Access
- Secure Cloud Storage
- 24/7 Monitoring Services

Privacy Protection and Emergency Readiness

- Data Privacy Consulting
- Executive Digital Survival Kits

Through constant vigilance and strategic threat management, USI helps protect your identity, privacy, and legacy against an evolving range of cyber threats, allowing you to move forward with confidence in every aspect of your personal and professional life.

The Critical Role of Cybersecurity in Modern Protection

Protecting the unseen vulnerabilities

Today's high-net-worth individuals and corporate leaders face heightened cyber risks due to:

- **Complex Financial Portfolios:** Multiple investments and entities create expanded attack surfaces.
- **Reputational Risks:** Cyber breaches can severely damage personal brands and corporate standing.
- **Privacy Threats:** Criminals exploit personal information for identity theft and extortion.
- **Advanced Persistent Threats (APT):** Sophisticated cyberattacks require proactive defense, not reactive measures.

Integrating cybersecurity into executive protection isn't optional, it's essential for protecting assets, legacy, and peace of mind.

A Holistic Executive Protection Approach

Technology Solutions for Elevated Protection

Modern protection is strongest when physical security and technology work together. USI's Integrated Solutions are designed to enhance safety, oversight, and rapid response across every environment.

Access Control Systems

Advanced systems to monitor and regulate facility access securely, ensuring only authorized personnel can enter restricted areas.

Video Surveillance Systems

High-definition CCTV solutions for real-time monitoring and evidence gathering, enhancing situational awareness and compliance.

Intercom and Emergency Call Systems

Reliable communication systems for swift incident response, ensuring quick coordination in critical situations.

Visitor Management Systems

Streamlined check-in and tracking processes to enhance security oversight and visitor experience.

Remote Monitoring Services

24/7 remote monitoring with proactive threat detection, leveraging advanced analytics to prevent potential security breaches.

Customer Support Offerings

Dedicated technical support to maintain optimal system performance, ensuring long-term reliability and operational efficiency.

By combining innovation with proven security expertise, USI's technology solutions deliver the critical infrastructure needed to detect, deter, and respond to today's complex threats, empowering our clients with greater control, oversight, and peace of mind.

The USI Advantage

Comprehensive Security Rooted in Experience, Powered by Innovation

At United Security, Inc. we bring together decades of federal, corporate, and private-sector experience to deliver security that adapts to the demands of modern leadership.

Single-Source Protection:

Physical, technology and cyber protection integrated under one operational umbrella.

Proactive Risk Mitigation:

Daily intelligence feeds and rapid response mechanisms.

Tailored Security Strategies:

Customized for each individual, family, or enterprise.

Trusted Expertise:

A legacy of partnership, innovation, and excellence in protection.

Executive protection today demands more than presence, it demands preparedness. We deliver a seamless, comprehensive security solution that protects your body, your data, your reputation, and your future.

That's the USI Advantage.
